

# VINCI Energies strengthens its automation and process control capabilities with the acquisition of Eltek Systems Ltd

VINCI Energies UK & RoI has strengthened its industrial automation and process control capabilities with the acquisition of Eltek Systems Ltd based in Oundle, Peterborough.

Established in 1983, Eltek Systems Ltd is a System integrator, Control Panel Manufacturer and Electrical installation specialist in the food sector. They are one of the leading providers of industrial process and automation solutions in the UK employing 38 people, 33 of whom being engineering and production staff. They are based in Oundle, Northamptonshire (near Peterborough).

The acquisition, finalised on the 17th of November, enhances VINCI Energies UK & RoI's industrial brand, Actemium in the UK. Actemium specialises in improving industrial performance by providing design, process automation engineering and electrical and mechanical installation services across the UK and the Republic of Ireland.

**Rochdi Ziyat, Chief Executive Officer, VINCI Energies UK & ROI**, said: *"We are delighted to welcome Eltek Systems Ltd into the VINCI Energies group. This is a great addition to our strong team of automation and control process specialists and will in turn strengthen our ability to serve our industrial customers in their digital transformation by improving their efficiency, optimising their industrial processes, and integrating the latest smart industry technologies."*

**John Smith, Managing Director, Eltek Systems Ltd**, commented: *"I'm excited for our team here at Eltek Systems Ltd to begin the next step of our journey with VINCI Energies UK & RoI as a part of Actemium UK's Automation Perimeter. Joining a global network of businesses will provide fantastic benefits for both ourselves and our customers. We look forward to a successful future."*
